Description Specification

Jupiter Condensor's Red Astron Capacitor offers the warm tone of the past with rockin' looks to boot. It's got a potted phenolic paper case that's guaranteed to bring stomping guitar riffs to your Johnny Cash tribute.

Product Features

- Perfect for guitar amplifiers, guitar tone control and vintage audio amplifiers.
- Vintage style and sound with the added reliability of modern technology.
- **Bring the '50s Back to Life:** A potted phenolic paper case and a tin foil + polyester dielectric will take you back to the booming sound of the post-war era.
- 20 AWG tinned copper leads provide resistance to corrosion and top-of-the-line conductivity.
- **USA All the Way:** Made in America with American materials.

Specifications:

- Tolerance: ±10% (typically much closer)
- 20 AWG Tinned copper leadouts (8mm diameter)
- Operating Temperature: -55°C - 85°C, derate 50% at 125°C

Vintage Sound, New Voltage:

Just how authentic are these Red Astron caps? They are rated at 600VDC but the writing on the case says 400VDC, because that's the way it was in the good 'ol days.
