Capacitor Types

- Film & Foil

Capacitor Voltage Range

- 100V to 199V
- 200V to 399V
- 400V to 599V
- 600V to 999V

Capacitor Value Range

- 1000pF to 9999pF
- .01uF to .999uF
- 1uF to 99uF

**Description** Specification

These Yellow Vintage caps offer sound as creamy as your favorite drive-in milkshake. Each cap is fitted with an aluminum foil and a polyester dielectric to give you authentic '60s reproductions.

**Product Features**

- Based on the classic Yellow Molded Astron Capacitor to give audiophiles sweet highs and creamy break-up quality.
- Perfect for guitar amplifiers, guitar tone control and vintage electronics.
- Vintage style and sound with the added reliability of modern technology.
- **Bring the '60s Back to Life:** An aluminum foil + polyester dielectric will give you tambourine highs that'll make your hippy neighbors jealous.
- 20 AWG tinned copper leads provide resistance to corrosion and top-of-the-line conductivity.
- Rated at 600VDC and tested at 1200VDC to ensure premium build quality.
- **USA All the Way:** Made in America with American materials.

**Specifications:**

- Tolerance: ±10% (typically much closer)
- Rated Voltage: 600VDC (tested at 1200VDC at three stages of production).
- 0.68uf version is rated at 100VDC.
- 20 AWG Tinned copper leadouts (8mm diameter)
- Operating Temperature: -55°C - 85°C, derate 50% at 125°C
- RoHS Compliant
